Denise – Cabo Rojo is not my site.....

I'm an RPM

Tom

Attached is a draft Cultural Resources report, for the Cabo Rojo Groundwater Contamination Site under Superfund, that needs to be reviewed by an EPA staff. John Vetter was the person in charge of reviewing this type of reports.

Please let me know if I should still send the report to Steve Ferreira for review or someone else from your staff?

thanks for your assistance

Denise

Buenos Días Denise,

Yesterday I uploaded the Draft Cultural Resources report to the Cabo Rojo eroom. It is too large to email. These reports used to be reviewed by John Vetter at EPA but I don't know if he is still working for EPA (it's been a number of years since I've had one of these reports).

Thanks

Susan

Subject: Cultural Resource Contact for the region

Denise – Mel asked me to send to you our contact for Cultural Resource actions. The contact is Steven Ferreira. The old contact was John Vetter who was an archeologist. Steve is not an archeologist but can refer you to an appropriate person in the state
Steve works in the Sustainability and Multimedia Branch.

Tom (I work in NYRB)
